PROJECTS

PRIMOS

React Native, Redux, ExpressJs, NodeJS

- This app was created to help to get to know people before you meet them by creating a list of each household member.

TRIPINEER - LOCALHOST

JavaScript, jQuery, PostgreSQL, Heroku, GIT/Github, Materialize, OAuth authentication.

- This group project was designed to provide and save info about activities and restaurants into their personal account when people take a vacation. *See it here.*

JOB APP

React, React Native, XCode, axios, Redux

- This app was implemented with Indeed API and google maps. It searches for jobs based on a zip code. *See it here*

EL TOPO GIGIO

Javascript, jQuery, API with Google Maps, Ticketmaster and OpenWeather

- This first app was created to help you with events in your city. Just type the city that you are interested on and 'El Topo Gigio' will do the job for you by providing you with all those activities, it also provide the weather at that particular place and with a help of Google Maps, it will provide the location where the event is taking place.

MOVIE RATING

Javascript, jQuery, HTML, CSS, AJAX.

- This app was an introduction to jQuery and the AJAX methods to build a page that allows to rank a movie.

EXPERIENCE

- Area Supervisor 2010
- Manager 2005 - 2010
- Cook 2003 - 2005
- Managed restaurant operations with focus on customer service and expansion of the business in a new market area.
- Responsible for interviewing, hiring, training, coaching, developing, ordering, scheduling, promoting.

BILINGUAL

English - Spanish
